GEO. C. STURGISS.

Faculty.

REV. LUCIUS H. BUGBEE, D. D.,

President, and Chamberlain Professor of Moral and Mental Philosophy.

REV. JONATHAN HAMNETT, D. D.,

Vice President, and Professor of Mathematics and Astronomy.

Kramer Professor of Hebrew and Biblical Literature.

JEREMIAH TINGLEY, A. M.,

Professor of Physics and Chemistry.

REV. AMMI B. HYDE, D. D.,

Professor of Greek Language and Literature.

CHARLES W. REID. A. M.,

Professor of Modern Languages and Literature, and History of the Fine Arts.

G. W. HASKINS, A. M.,

Bradley Professor of Latin Language and Literature.

JEREMIAH TINGLEY, A. M.,

Curator, and Secretary of the Faculty.

CHARLES W. REID, A. M.,

Librarian.

Students.

SENIOR CLASS.

M. C. Bailey, - - - - - - - *Sandy Lake, Pa.*
Edward Kinny Creed, - - - - - *Hall's Corners, N. Y.*
James S. Eaton, - - - - - - - *Cross Roads, Pa.*
James George, Jr., - - - - - - *Saegertown, Pa.*
William Mayes Martin, - - - - - *Parnassus, Pa.*
Lida M. Minniss, - - - - - - *Meadville, Pa.*
Julia Morum, - - - - - - - *Titusville, Pa.*
Annie M. Warner, - - - - - - *Battle Creek, Mich.*
Thomas H. Silver, - - - - - - *Wellsville, Ohio.*
Wilbur Garrettson Williams, - - - *Plainfield, Ohio.*

JUNIOR CLASS.

Walter O. Allen, - - - - - - - *Sheridan, N. Y.*
Alma E. Albertson, - - - - - *West Springfield, Pa.*
Robert D. Campbell, - - - - - *Clarion, Pa.*
Camden M. Cobern, - - - - - *Uniontown, Pa.*

Summary.

SENIOR CLASS,	10
JUNIOR CLASS,	17
SOPHOMORE CLASS,	23
FRESHMAN CLASS,	23
PREPARATORY CLASS,	59
TOTAL,	132

Admission.

Candidates for admission to College must present testimonials of good moral character, or certificates of honorable dismission from other Colleges.

Every Student must write in the Matriculation Book of the College, his own name, and the name and place of abode of his father or guardian.

Ladies will be admitted to the College classes subject to the same examination as gentlemen.

An accurate knowledge of the following studies will be required for admission to the Freshman Class:

LATIN, - - - -	Reader and Prose Composition, Harkness. Two Books of Cæsar's Commentaries. Four Books of Virgil's Æneid, and Prosody. Harkness' Grammar.
GREEK, - - - -	Lessons, Reader, and Composition. Two Books of Xenophon's Anabasis. Hadley's Grammar.
MATHEMATICS,	Arithmetic. Higher Algebra to Quadratic Equations.
ENGLISH, - - -	Geography. Grammar. History.

For admission to the advanced classes, a knowledge of the previous studies of the course, or their equivalents, will be required.

All members of the Senior Class will be expected to be in attendance during the entire Senior year.

For the present, to accommodate students preparing for the College course, classes will commence Latin the first Term of the College year, and Greek and Algebra the second Term. The Professors of the College will give instruction to these classes.

Classical Department.

Freshman Year.

FIRST TERM.

Virgil.
Herodotus,—Johnson.
Algebra, commencing at Quadratics,—Ray.
Geometry,—Loomis.

SECOND TERM.

Sallust.
Homer's Iliad,—Anthon.
Algebra completed,—Ray.
Geometry and Conic Sections,—Loomis.

THIRD TERM.

Cicero's Orations.
Homer's Iliad,—Anthon.
Trigonometry, plane and spherical,—Schuyler.
Botany,—Gray.

Composition and Declamation through the year.

Sophomore Year.

FIRST TERM.

Livy, and Latin Etymologies.
Xenophon's Memorabilia.
Zoology.
Surveying, Notes and Field Practice.
History of English Literature,—Shaw.

SECOND TERM.

Horace.
Plato.—Tyler.
Analytical Geometry,—Loomis.
Physics—General Principles, etc.,—Silliman.
Chemistry—Lectures and Experiments.

THIRD TERM.

Tacitus—Germania and Agricola.
Calculus—Differential and Integral,—Loomis.
Physics—Solids and Fluids.
Theoretical Chemistry,—Barker.

Composition and Declamation through the year.

Classical Department.

Junior Year.

FIRST TERM.

Greek Tragedy,—Crosby.
Physics—Undulations and Acoustics.
Logic,—Thomson.
Natural Theology and Evidences of Christianity,—Paley.
Chemistry—Inorganic.

SECOND TERM.

Tacitus—History.
Physics—Optics.
Chemistry of Carbon.
Intellectual Philosophy,—Haven.
Rhetoric,—Day.

THIRD TERM.

Thucydides,—Owen.
Astronomy,—Loomis.
Physics—Heat and Electricity.
Chemistry—Laboratory Practice.
Criticism.

Composition and Declamation through the year.

Senior Year.

FIRST TERM.

Cicero *de Officiis*.
Astronomy—Lectures.
Esthetics—Lectures.
Mineralogy,—Dana.
Philology—Lectures.
Geology, Dana.

SECOND TERM.

Geology, Mineralogy.
Butler's Analogy.
Political Economy, Wayland.
Art History—Lectures.

THIRD TERM.

Geology—Lectures and Excursions.
Moral Philosophy,—Wayland.
Mineralogy.
International Law and Constitution of the United States,—Kent.
Art History—Lectures.

Original Orations through the year.

Scientific Department.

Freshman Year.

FIRST TERM.

French, Fasquelle's Grammar.
Algebra, commencing at Quadratics, —Ray.
Geometry,—Loomis.
Physiology and Hygiene,—Dalton.

SECOND TERM.

French, Fasquelle's Grammar.
Algebra completed,—Ray.
Botany,—Gray.
Geometry and Conic Sections,—Loomis.
Zoology,—Nicholson.

THIRD TERM.

French.
Zoology.
Botany.
Trigonometry, plane and spherical,—Schuyler.

Composition and Declamation through the year.

Sophomore Year.

FIRST TERM.

French.
German Grammar,—Woodbury.
Surveying--Notes and Field Practice.
History of English Literature,--Shaw.
Botany.
Zoology.

SECOND TERM.

French,—Telemaque.
German Reader.
Physics—General Principles.
Analytical Geometry, Loomis.
Chemistry—Lectures and Experiments.

THIRD TERM.

German.
French,—Corinne.
Calculus,—Loomis.
Physics—Solids and Fluids.
Theoretical Chemistry,—Barker.

Composition and Declamation through the year.

Scientific Department.

Junior Year.

FIRST TERM.

German.
Inorganic Chemistry.
Physics—Undulations and Acoustics.
Logic,—Thompson.
Natural Theology and Evidences of Christianity,—Paley.

SECOND TERM.

German, Wilhelm Tell.
Physics—Undulations, Acoustics and Optics,—Silliman.
Chemistry of Carbon.
Intellectual Philosophy,—Haven.
Rhetoric,—Day.

THIRD TERM.

German.
Astronomy,—Loomis.
Physics—Heat and Electricity.
Chemistry, Laboratory Practice.
Criticism.

Composition and Declamation through the year.

Senior Year.

FIRST TERM.

Astronomy—Lectures.
Geology,—Dana.
Philology.
Esthetics—Lectures.
Mineralogy,—Dana.

SECOND TERM.

Geology.
Butler's Analogy.
Mineralogy.
Political Economy,—Wayland.
Art History—Lectures.

THIRD TERM.

Geology—Lectures and Excursions.
Moral Philosophy,—Wayland.
Mineralogy.
International Law and Constitution of the United States,—Kent.
Art History—Lectures.

Original Orations through the year.

Biblical Department.

Freshman Year.

The same as Classical Department.

Sophomore, Junior, and Senior Years.

The same as Classical Department, with the exception of the substitution of six Terms in Hebrew, and three Terms in Biblical Literature, for the same number of Terms in Latin, Greek and Mathematics, with the addition of two Terms in Greek—New Testament.

In this Department instruction in Hebrew will be given by Rev. A. B. Hyde, D. D.

Miscellaneous.

EXAMINATIONS.

There will be three examinations of classes during the year. The first will be held on the last three days of the Fall Term. The second on the last three days of the Winter Term. The third will begin a week previous to Commencement.

CLASSIFICATION.

The Classification in the Catalogue is made at the close of the College Year, and gives the class-rank for the year.

A student having completed the studies of the Preparatory Course and Freshman year, less five, can take rank as Freshman. Having completed the above and the studies of the Sophomore year, less four, he can take rank as Sophomore. Having completed all the above and the studies of the Junior year, less three, he can take rank as Junior. For graduation he must complete the studies of the entire course.

DEGREES.

The Degree of Bachelor of Arts will be conferred upon those who complete in a satisfactory manner, either of the preceding courses of study.

The Degree of Master of Arts may be conferred in course on every Bachelor of Arts of three years' standing, who has been engaged since his graduation in some literary occupation, and has sustained a good moral character. Application should be made to the President as early as the Monday preceding Commencement, advancing the usual fee.

COLLEGE HONORS, 1874.

FIRST HONOR, Valedictory, - - GEORGE I. WRIGHT.
SECOND HONOR, - - - - JOHN POE.

PRIZES, 1874.

DECLAMATIONS.

The President's Prizes, competed for by all the members of the College, were not awarded.

The Keystone Prize, established in connection with the Allegheny Literary Society, and competed for by all its members was awarded to

C. M. COBERN.

The Chambers' Prize, established in connection with the Philo-Franklin Society, and competed for by all its members, was awarded to

W. O. ALLEN.

ESSAYS.

ALLEGHENY LITERARY SOCIETY.

The Allegheny Prize, competed for by its members in either the Freshman Class or the Preparatory Department, was awarded to

T. J. MOSIER.

PHILO-FRANKLIN LITERARY SOCIETY.

The Kalamathean Prize, competed for by all its members in either the Freshman Class or Preparatory Department, was awarded to

W. E. McDOWELL.

The Woodruff Prize, competed for by all its members, not awarded.

"The Centenary Prize," established in connection with the Philo-Franklin Literary Society, not awarded.

PRESIDENT'S DEPARTMENT.

Instruction is given by the President in Political Economy, Biblical Literature, Butler's Analogy, Moral Philosophy, International Law, Constitution of the United States, Logic, Natural Theology, Evidences of Christianity, Mental Philosophy, Rhetoric, and History of English Literature.

DEPARTMENT OF LATIN.

In addition to the necessary Preparatory Course, eight Terms are devoted to the Latin Classical Authors, ending with the first Term of the Senior year, together with exercises in Latin Prose Composition, continued through the Freshman and Sophomore years.

DEPARTMENT OF MATHEMATICS.

To the complete course in pure Mathematics is added the application of Geometry and Trigonometry to Surveying and Elementary Engineering. Compass, Chains, Transit, and all other necessary instruments, are furnished and practically used in the field.

DEPARTMENT OF NATURAL SCIENCE.

Botany and Zoology, commencing in the Winter Term of the Freshman Year, continue through three consecutive Terms. In these branches, the student is brought face to face with nature, and required to make constant observations upon the forms and phenomena of animal and vegetable life about him. Lectures, Recitations, Drill, and Analysis of natural objects, varied according to the nature of the lessons, are in constant use.

Physics and Chemistry.—No College in America has more complete facilities for obtaining a thorough elementary knowledge of these branches. The costly and splendid apparatus, kept up to the times by occasional additions,—and the Laboratories, abundantly provided with chemicals and facilities for every kind of chemical work, make these studies unusually attractive and satisfactory. The Course requires five consecutive Terms.

Mineralogy and Geology.—After a severe drill with crystallographic models, continuing four weeks, Mineralogy is chiefly taught by the actual examination and analysis of Minerals, with frequent and intelligent use of the College Cabinets. Geology is taught by Recitations, Lectures, Cabinet Illustrations and Excursions. With the exception of Astronomy, all the classes in Natural Science are assigned to the Chair of Physics and Chemistry.

DEPARTMENT OF GREEK.

The amount of Greek required is thought sufficient to give the mind such definite acquaintance with the model of Languages, as to fit it to comprehend and enjoy the pursuit of other Languages. For this purpose it is desirable that the preparatory Greek be studied before the Languages of the Collegiate Course are begun. Seven

Terms in the regular College Course are devoted to Greek Classics. Of these the first two are accompanied with exercises in Greek Composition, and the second and third with a weekly recitation in Greek History.

DEPARTMENT OF MODERN LANGUAGES.

The Course in French and German requires two years, and consists of daily Recitations in each of these Languages. The first two Terms are occupied with the Grammar. The student is required the first year to translate every day, upon the black-board, from the English into these languages. The second year is spent with the Classical Authors, and all Conversation, Criticisms, &c., are carried on exclusively in the language studied. Especial attention is given to speaking correctly and fluently.

VOCAL MUSIC.

Opportunity is offered every term to students desiring instruction in the elements of vocal music, at rates of tuition merely nominal.

ASTRONOMICAL INSTRUMENTS.

By generous donation, Hon. G. B. DELAMATER has furnished an excellent Telescope, 8 feet Refractor, 7½ inches Object Glass, in power capable of separating minute double stars; manufactured by A. Clark & Son, Cambridge, Mass. Also, a superb Transit from the hands of Stackpole Bros., New York. These instruments are temporarily mounted, waiting the erection of a suitable Observatory.

Also, Sextant, Transit with Meridian Finder, Prismatic Compass, and other instruments essential to the department of ENGINEERING, all of first class workmanship, and practically used in the field.

APPARATUS AND CABINETS.

The College is in possession of extensive Cabinets of Mineralogy and Conchology, and complete Chemical and Philosophical apparatus of the most approved forms, mostly gifts from Hon. C. V. CULVER.

The apparatus comprises several hundred distinct pieces, affording the most ample means of illustrating every branch of Physics and Chemistry now taught in Collegiate Institutions.

Among the more expensive Instruments are the following:

A compound Microscope, with accessories, manufactured by Zentmayer, of Philadelphia, at a cost of about $500.

A Rumkorff Induction Coil, giving a twelve inch spark, by E. S. Ritchie & Co., of Boston, costing $525.

A Thilorier's Apparatus for solidifying Carbonic Acid.

Eighteen Instruments to illustrate the Laws of Undulations.

Auzoux' largest size Anatomical Models of the Eye, Ear, Brain, and Larynx.

Apparatus for reproducing Tyndall's experiments on Heat.

A Solar Microscope.

Two Polariscopes with accessories.

A Spectroscope with four Prisms.

Apparatus for projecting optical phenomena on a screen, including a first class double Lantern, adapted to four kinds of light.

The Optical Instruments, excepting the Compound Microscope, Telescope, and Astronomical Transit, were made by M. Duboscq, of Paris.

The Laboratory is stocked with a full assortment of common Chemicals, a Cabinet of rare preparations, and an abundant supply of Apparatus for all chemical purposes—the greater part of which has been imported from Paris and Berlin.

The Cabinet embraces four distinct collections of Minerals and Shells.

1. The Prescott Cabinet, comprising 2,400 specimens of marine, terrestrial and fresh water Shells, and about 3,000 specimens of Minerals and Fossils collected and mounted by Dr. William Prescott, of Concord, New Hampshire.

2. The Haldeman Cabinet has 550 excellent and carefully labeled specimens of Minerals, and about 2,000 species of Shells, and was purchased of S. S. Haldeman, of Columbia, Penn'a.

3. The Alger Cabinet.—This magnificent collection, made by the late Francis Alger, of Boston, was purchased at a cost of $12,000, and contains 5,000 specimens of Minerals, remarkable for their beauty and variety, many of them unique. It embraces also a large number of duplicates, and a handsome suite of about 1,500 specimens of Shells. This collection is said to have cost Mr. Alger over $35,000.

4. Cabinet of Lithology and Palæontology.—Arrangements have been made with Prof. A. Ward, of the University of Rochester, for a Lithological and Palæontological Cabinet of over 11,000 specimens, about 1,000 of which have been received. The Megatherium Cuvierii and six other large casts are mounted in the former Chapel, which has been fitted up in elegant style for this Geological Museum.

SMITHSONIAN COLLECTIONS.—In addition to several valuable collections heretofore received from the Smithsonian Institution, there has been added a *suite* of over 500 specimens of land, marine and fresh water Shells, from Panama, Vancouver's Island, and the West Indies, chiefly obtained by the late Prof. C. A. ADAMS, and authentically labeled by H. CUMING and Dr. P. B. CARPENTER, from the collections of D'ORBIGNEY & CUMING.

ENTOMOLOGICAL CABINET.—The collections of the College have just been enriched by the receipt of a superior Cabinet of Insects, embracing 3,000 species, carefully and accurately catalogued and classified. It was arranged by W. O. CURRIER, of Providence, R. I., and donated by a friend of the College.

In addition to the above named collections there are about 1,000 Zoological specimens including Birds, Reptiles, Fish, and Marine animals; which are constantly being increased in number by the exertions of the Scientific Club.

These valuable additions greatly increase the scientific advantages of the College, and furnish special incentives to the study of Natural Science.

MUSEUM OF ART HISTORY.

This collection contains sixty casts of works of Sculpture, two hundred Photographs, and the same number of Engravings. They are so selected as to represent characteristic features of the different periods of the Arts of Architecture, Sculpture, and Painting. Among the casts are:

The Apollo Belvidere—original in the Vatican, Rome.

Niobe—original in the Uffizzi Gallery, Florence.

Venus of Milo—original in the Louvre, Paris.

Polhymnia and Ancyrrhoe—originals in the Royal Museum, Berlin.

The Apostles, Peter, Paul and James, by Peter S. Visher,—originals in St. Sibaldus Church, Nuremberg.

Moses, by Michael Angelo—original in Rome.

The Nuremberg Nun, Statues of Handel and Lessing, Busts of Sophocles, Euripides, Gœthe, Schiller, and various Egyptian, Grecian, and Medieval bas-reliefs.

The Royal Museum of Berlin has also presented to the Allegheny College Casts of the celebrated Statue of Diana Colonna, Busts of Alexander the Great and Julius Cæsar, the Wackenroder Memorial, German and Roman Busts, Casts of Indian and Assyrian Sculpture, and a fine collection of original German and Classical Antiquities,

consisting of German stone Hammers, Battle-axes, Drinking-vessels, and Greek and Etruscan Vases and Lamps.

A large Chinese, and also a Japanese Painting, have been presented to the Museum.

Rev. Mr. LONG, Missionary to Bulgaria, has presented some Terra Cottas and Coins from Ephesus.

Friends and patrons of the College traveling abroad are invited to add to this Museum works of Art of any kind, but especially Photographs of Historical Works of Architecture, or original Antiquities of any Nation. Copies of the works of native Artists, Memorials of the late war, or any articles to illustrate the history of the Indian or European races in this Continent, will be carefully preserved. The names of the donors will be attached to all articles thus presented.

RELIGIOUS WORSHIP.

The Scriptures are read and Prayer offered mornings in the College Chapel, at which time all the Students are required to be present.

Regular attendance on some place of religious worship on the Sabbath is a requirement of the College.

The Students' Prayer Meeting will be held on Thursday evening of each week.

PUBLIC EXERCISES.

Lectures by the Professors, original Orations by the Senior Class, and Declamations, Compositions, original Orations, and Debates by the Literary Societies, on Tuesday or Friday evenings of each week.

LITERARY SOCIETIES.

The Allegheny, Philo-Franklin, and Ossoli Societies, have each their respective Halls and Libraries.

LIBRARY.

The College and Society Libraries contain upwards of 10,000 volumes, embracing many rare and valuable works, and accessible to all the students.

SCIENTIFIC CLUB.

An impetus to scientific culture has been given by the recent organization of a Society bearing the above name. It is composed

chiefly of students, and holds semi-monthly meetings. Its chief objects are the study and collection of the Natural History of the district about Meadville, which is one of extraordinary richness, both as to plants and animals. The Club also provides for regular meteorological observations, and will publish a daily bulletin containing the first Morning Weather Report from the Bureau at Washington.

READING CLUB.

The Reading Club is a voluntary organization, composed of the members of the Faculty, students of the College, and others. Its advantages are invaluable, and highly prized. It provides for its members all that is desirable in modern Periodical Literature, American, English, French, and German, together with Dictionaries, Atlases, Encyclopedias and other books of reference. Its commodious and inviting Hall is always open during recitation days.

EXPENSES.

Board in the Hall and private families varies from $4.00 to $5.00 per week. Many students by boarding themselves, reduce these expenses to $2.00 and $3 00 per week.

Number of students from April 1st, 1874, to April 1st, 1875, Gentlemen, 130, Ladies, 30; Total, 160.
